

Programmer Analyst – Data Warehouse and Business Intelligence

The Computing and Information Technology Center at the University of North Texas is growing at an explosive rate. Come join diverse and socially inclusive teams specializing in the entire spectrum of enterprise system technology as the university expands its presence in North Texas and becomes the third largest public university in the State of Texas.

Numerous openings are being offered in the Computing & Information Technology Center. To view all the technical computing positions on the jobs.unt.edu website, select **Computing & Info Tech Center** in the **Department** drop-down list, then click the **Search** button.

The Programmer Analyst is a professional position involving complex technical work analyzing administrative problems that typically have university-wide or system-wide implications. This individual performs work involving design, development, maintenance, and coordinating the operation of the data warehouse and business intelligence for all UNT System institutions. This individual may also have responsibilities for organizing and controlling the activities of a group ("team") of programmers and business analysts engaged in various projects.

Work for this position is performed under general supervision with latitude for original creative thinking and planning, within established guidelines. Programmer analyst openings are available in both the Data Warehouse and Business Intelligence areas.

The position requires a Bachelor's degree with coursework in computing or information systems and four years full time progressively responsible experience with systems analysis, design and software programming; or any equivalent combination of experience, education, or training.

The following experience is desired:

- Data modeling and design
- Data warehouse and business intelligence
- ETL, OLAP
- MS SQL Server
- Project management

All applications and resumes should be submitted via the jobs.unt.edu website. If you have any questions about exploring the possibilities in our organization, send an email to eistrn@ad.unt.edu.

The University of North Texas is an Affirmative Action/Equal Opportunity Employer.
